

Virtual STUDENT RESEARCH SHOWCASE

TUESDAY, OCTOBER 20, 2020

Welcome

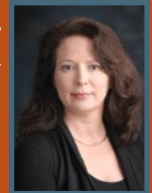

Message from Dr. Ariadne Letra, Interim Associate Dean for Research

Welcome to the 2020 Student Research Showcase. This year marks the 10th year of the showcase, amidst undoubtedly challenging times due to the COVID-19 pandemic. The Summer Research Program was redesigned to a virtual format and gathered more than 30 mentors and nearly 50 students who will be presenting their exciting research discoveries. Congratulations to all students and mentors for their dedication and resilience that makes this year's Student Research Showcase the largest ever. Our keynote speaker is Dr. Dana Graves, Professor and Vice Dean for Scholarship and Research, University of Pennsylvania School of Dental Medicine, who will present a seminar on "The Diabetes Epidemic and Oral Health" as part of the William T. Butler lectureship. We invite you to participate and enjoy this special day.

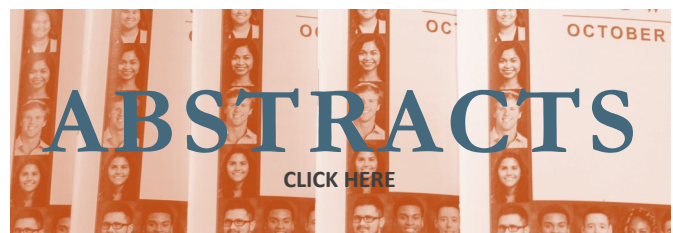

Message from Dr. Gena Tribble, Student Research Coordinator

Thank you for supporting our students on this special day. Our students take on the challenge of research in addition to many other responsibilities, and today we recognize and celebrate their contributions to discovery. As with any difficult undertaking, it takes a team effort to be successful, and special thanks and recognition are due to the faculty mentors who volunteer their time and knowledge to support the Summer Research Program. In this difficult pandemic year, we expected our research output to suffer, but instead we have continued to grow both the quality and the quantity of our work, and that is a direct testament to the quality of our faculty. I hope you enjoy this year's Research Showcase.

Schedule

- 12:00-12:10 PM WELCOME [ROOM LINK](#)
- 12:10-1:25 PM STUDENT ORAL PRESENTATIONS
- 1:30-2:30 PM WILLIAM T. BUTLER
DISTINGUISHED LECTURE [ROOM LINK](#)
