Dear Students:

On behalf of the faculty, staff and administration of UTHealth School of Dentistry at Houston, I extend a hearty welcome to the Class of 2023! We now count you among our 600 active undergraduate, professional and advanced education students and residents, and you have a special place in the UTSD family.

We know your expectations are high, and we share your enthusiasm. You’re embarking on a journey that will change your life and the lives of those you care about. Along the way, you’ll forge friendships with classmates who may be strangers today, but will soon become lifelong colleagues and friends.

As you begin your studies, we challenge you to participate, question, contribute and innovate as you learn. I encourage you to be active learners outside the classroom — in the lab, clinics and even the hallways and casual or virtual gathering places. Information today is constant and easily accessible, so stay current via email, newsletters, town hall meetings, social media and other means. Be active in class meetings, student organizations and volunteer opportunities. Doing so will enhance your experiences in ways that will pay off for a lifetime.

We look forward to working with you over the next few years and to celebrating together when you join the ranks of more than 10,000 UTSD alumni.

If you have questions or need information, please don’t hesitate to ask for help. Be sure to check out the information in this guide, and please accept our best wishes for continued success along your path of learning. We never forget you’re the reason we’re here!

Warmest regards,

[Signature]

Dean John A. Valenza, D.D.S.
William N. Finnegan III Distinguished Teaching Professor in the Dental Sciences
For more than 110 years, The University of Texas School of Dentistry (UTSD) at Houston has set the standard for oral health excellence by educating outstanding dentists and dental hygienists, discovering new oral health advancements and caring for the people of Texas. Founded in 1905 as the privately owned Texas Dental College, UTSD was the first dental school in Texas and the first professional school in Houston. The school became part of UT System in 1943 as “The University of Texas School of Dentistry” and in 1955 was renamed “The University of Texas Dental Branch,” a name it held until June 1, 2011, when it again became the UT School of Dentistry. In 1945, the UT System Board of Regents authorized creation of the Dental Hygiene Program as part of UTSD, and the first dental hygiene class was admitted in 1955. Since 1972, the School of Dentistry has been part of The University of Texas Health Science Center at Houston (UTHealth).

The school offers 12 accredited programs: DDS, dental hygiene, two primary care general residency programs and specialty programs in endodontics, oral and maxillofacial surgery, orthodontics, pediatric dentistry, periodontics, and prosthodontics, two dual degree programs DDS/MPH & BSDH/MPH, as well as an MD degree through the UTHealth Medical School, with an oral and maxillofacial surgery certificate.

THE UNIVERSITY OF TEXAS SCHOOL OF DENTISTRY AT HOUSTON

The University of Texas School of Dentistry of the University of Texas Health Science Center at Houston (UTSD) has been established to provide the highest quality dental education to students. The school is committed to preparing students to become competent, ethical, and compassionate dental professionals who will contribute to the improvement of oral health care and the well-being of society.

The School of Dentistry offers a DDS degree program that provides a comprehensive education in all aspects of general dentistry. The curriculum is designed to prepare students for a successful career in oral health care.

THE SCHOOL OF DENTISTRY DENTAL EDUCATION PROGRAM (D.D.S.)

CURRICULUM

The University of Texas School of Dentistry at Houston Dental Education Program curriculum is designed to maximize the students’ learning experiences through a structured presentation of basic sciences, pre-clinical training, and clinic activities. There is integration of the various disciplines to aid the student in assimilating the foundational knowledge and skills necessary for comprehensive patient care. The building blocks are the various courses, laboratories, and clinics offered at the School of Dentistry. Our goal is for you to graduate after four years of study, competent to practice general dentistry.

Courses use a variety of educational instruments to aid the student in learning. These include traditional lectures, problem-based learning sessions, written self-directed materials, textbooks and other printed materials, as well as non-printed materials such as video and Canvas posted electronic resources. A syllabus is provided for each course as a guide.

The syllabus contains all of the necessary information for successful completion of the course. A goal is stated, describing the overall aim of the course. Every course syllabus contains a list of behavioral objectives i.e., what the student should know, or be able to do, when the course has been completed successfully. Comprehension of these objectives allows the student to reach the educational goal. The syllabus also contains a list of resources used to achieve the course objectives. These resources include media, online, and human resources.

All syllabi have a suggested study plan and state the specific requirements of the course. Finally, all course syllabi list evaluation methods used to determine the course grade. This section states not only the type of examination/evaluation that will be administered, but also the relative weights of other evaluation instruments, e.g., quizzes, laboratory projects, etc.

The courses presented at the School of Dentistry have been scheduled to promote integration of information and timely progress from one course to the next. Students are required to attend all scheduled course sessions as
presented in the semester schedule. The organization of instructional material is intended to help students appreciate the inter-relationships among the various academic and clinical disciplines. Students are exposed to clinical experience in the first year and assume the responsibility for comprehensive patient care following pre-clinical training in the second year of the curriculum. As an addition to the core curriculum, the electives program at the School of Dentistry offers enrichment courses in a variety of areas beyond the scope of the required pre-doctoral curriculum. Every student must complete 4 credit hours of elective courses and 2 continuing education courses in addition to the core curriculum.

The academic year is composed of two 18-week semesters. An eight-week summer session follows the first, second and third years. School of Dentistry students are expected to complete their dental studies within four years. The graduation time is scheduled to coincide with the Western Regional Examining Board Examination.

**ADVISORS**

A faculty advisor is assigned to each student at the beginning of the academic year. The student is strongly recommended to meet with the advisor for an orientation meeting at the beginning of each semester and maintain regular contact throughout the year. The advisor will monitor the student’s progress through their academic program and serve as a mentor and counselor when needed. The advisor will refer the student for services and support as necessary, and the student should consider the advisor as the first person to contact whenever advice is needed.

**STUDENT PEER MENTOR PROGRAM**

In the next few months you will receive information from the Class of 2022 about scrubs, mentors, and student “survival kits”. Each first-year student is assigned a peer mentor from the second-year class to facilitate the entering students’ transition into the dental school. First-year dental students meet their second-year peer mentor during orientation week. Thereafter, student pairs meet as needed during the year.

**OFFICE OF STUDENT & ACADEMIC AFFAIRS**

The Office of Student and Academic Affairs provides student and academic services for applicants, current students, and faculty. Student Affairs is responsible for admissions, student records, student life, and support services. Academic Affairs is committed to the pursuit of excellence in all of the School of Dentistry’s student and academic activities.
SCHOOL OF DENTISTRY AT HOUSTON CALENDAR
2019-2020

2019
August 6-8   Orientation for entering students
August 9    Open House and White Coat Ceremony
August 12   Fall semester begins at 8am
September 2 HOLIDAY – Labor Day
November 27 Last day of didactic classes
November 28-29 HOLIDAY - Thanksgiving
December 2   Finals begin
December 13  Fall semester ends at 5pm

2020
January 6    Spring semester begins at 8am
January 20   HOLIDAY – Martin Luther King Day
February 17  HOLIDAY - Presidents Day
March 16-20  Spring Break
May 4        Finals Begin
May 15       Spring Semester ends at 5pm
May 25       HOLIDAY – Memorial Day
May 26       Summer term begins at 8am
July 3       HOLIDAY – Independence Day
July 17      Summer term ends at 5pm

**Dates and Holidays are subject to change**
REGISTRATION

Applicant and Student services are provided through MyUTH. Once your applicant information is loaded into the student system you will receive two email notifications providing you with login instructions.

Upon receiving your login information, students should use MyUTH (https://my.uth.tmc.edu) to:

- View Account information/To Do list/Holds
- You must submit your immunizations through MyUTH by logging in and selecting the immunizations link. This may be found under the “Holds and To Dos” sections. List required dates and upload your immunization documentation and supporting proof. You will be able to upload multiple documents.
- Remove Health Insurance HOLD (this will need to be done each year before enrollment)
- Select an installment plan
- Make online payments
- Update your contact information
- Request transcripts
- View grades and course history

Doctor of Dental Surgery (DDS) Students are enrolled in classes by the Registrar’s Office. A variety of information regarding Graduation, Registration & Student Information is listed on their website at https://www.uth.edu/registrar/ or by using the following methods:

Phone: 713-500-3361
Email: Registrar@uth.tmc.edu
Fax: 713-500-3356

If you incur issues logging onto MyUTH, contact the HELP Desk at 713-486-4848.

CRIMINAL BACKGROUND CHECK

Your acceptance to the School of Dentistry is conditional until you complete a criminal background check. The University of Texas School of Dentistry at Houston has selected an outside company, Pre-Check, to conduct these checks. Please visit the “Accepted Students” section of our website at https://dentistry.uth.edu/students/doctor-of-dental-surgery/index.htm for instructions.

The results will be released directly to the School of Dentistry. If untoward search results are identified, you will be informed and subsequently given the opportunity to contest/question the report with the vendor.

Please keep in mind that they need time to process your application, and it must be completed by June 1, 2019. If you have questions or problems using the website, please contact Shannan Tighe of Pre-Check at shannan@pre-check.com
CPR TRAINING

You are required to obtain CPR training prior to orientation. If you do not have a current valid CPR Certificate, please be sure to take CPR training before June 28th, 2019. The course is required to be: A cognitive and skills evaluation in accordance with the curriculum of the American Heart Association Basic Life Support (BLS) for Healthcare Providers (CPR & AED) Program. Skills demonstration must be completed in person (didactic component may be completed online via heart.org). CPR certifications must be completed outside of our institution. Please submit a copy of your certification via e-mail to Crystal.Johnson@uth.tmc.edu no later than June 28th, 2019. Certification must be valid until December 31, 2019.

ORIENTATION

A required three-day orientation for first year dental students will be conducted August 6-8, 2019. Students should be present in Room 4310 of the School of Dentistry on August 6th promptly at 8:00 a.m. Slacks/pants/skirts and collared shirts/blouses are recommended – no jeans or shorts please. Comfortable shoes are suggested as much walking is involved. The School of Dentistry Open House and White Coat Ceremony will take place tentatively on Friday, August 9th located in The Denton A. Cooley, MD and Ralph C. Cooley, DDS University Life Center. An invitation will be sent to your email address with the final event details.

On the first day of orientation you will receive your student ID badge. Along with this, you will need to bring an additional government issued photo ID, such as a valid driver’s license or passport. These items will be needed in order to setup your UT e-mail address.

TEXTBOOKS

As in the case of instruments, students will need specific required textbooks and manuals. Students purchase books at the UT School of Dentistry Bookstore (Room 2202). Approximate book costs: $1,770.12.

MAGNIFICATION

All first year students enrolled in the DDS program must have visual magnification for use in pre-clinical courses and clinics. Various companies will have representatives present at the School of Dentistry during the mid-part of the year to display their products. First year dental students will be able to ask these representatives questions about their products and determine which product is most appropriate for their use. The financial aid budget includes an amount towards the purchase of magnification.

HEALTH INSURANCE REQUIREMENTS FOR ALL STUDENTS

The Board of Regents of The University of Texas System mandates health insurance for all students enrolled in the UT System health components. As such, each UTHealth student who cannot provide evidence of continuing coverage under another approved plan will be enrolled in the student insurance plan with Academic HealthPlans and assessed a health insurance fee. The health insurance fee is $2,789.00 for the academic year 2019-2020.

Before being able to register for classes each semester, every student must complete the health insurance certification process through his/her MyUTH account. Through this process, students either provide proof of their own coverage or confirm their participation in Academic HealthPlans. For students who attest to coverage under another approved plan, the health insurance fee will not be assessed to their student account.

For further information, please access the Auxillary Enterprise website at https://www.uth.edu/auxiliary-enterprises/insurance/index.htm; email student-insurance@uth.tmc.edu or call 713-500-8400.
INSTRUMENTS AND SUPPLIES

All first year dental students must participate in the dental instrument rental program. You must also purchase the expendable instrument and supply kit from the UT School of Dentistry Bookstore (Room 2202) before the start of classes (during orientation).

Purchase may be made with cash, personal check, Master Card, Visa, Discover or American Express. The estimated cost of the first year expendable kit for Fall 2019 is $5,999.00.

School of Dentistry Educational Support Services (Room 3450) provides many items that you may check out and use as needed at no additional cost to you other than for loss or damage. Some of these items are: Instrument Cases, Microscopes, Surveyors, Casting Equipment, and Gypsum Materials.
Incoming Student Laptop Requirements

a. Laptop computer (PC or Mac) with at least a 13-inch screen
b. Minimum of 8GB RAM
c. Minimum of 250GB HDD space (larger would be better) and maintaining at least 30GB of free space throughout the program. **Hard drive RAID configurations are NOT permitted.**
d. Minimum of 1.6GHz processor (Core i5 or better)
e. 256mb video card
f. PC users must run either Windows 7, Windows 8.1 or Windows 10. Mac users must have OS Mavericks (10.9) or higher
g. Microsoft Office 2010 or later (Can be downloaded from the UT student software portal)
h. Off campus internet access
i. An up-to-date virus scanner
j. Windows users should install Malwarebytes Anti-Malware Free Version
k. **3M Gold monitor privacy filter**

NB. Microsoft Surface tablets are not sufficient to meet the laptop requirements.

**Encryption**

The hard drive in your laptop must be encrypted before you attend at the School. Mac users must turn on FileVault 2.

PC users must install Symantec Encryption software (unless they already have Bitlocker installed and active). Students who are attending UTSD will be sent Instructions for downloading and installing the software. **Do not run both Symantec and Bitlocker** or your hard drive may become inaccessible.

All students will be required to sign a statement declaring that they will keep their computer hard drives encrypted for as long as they are students of the UT School of Dentistry.

Your laptop will be reviewed during Orientation to ensure that it complies with these specifications.

**Airwatch**

Students attending UTSD are **strongly encouraged** to get their School email sent to their cell phone (iPhone, Droid or Windows phone only). To do this, you must have your UT login credentials and install the Airwatch application on your phone. Airwatch adds additional security to the phone allowing you to use it for patient communication. The storing of patient information on a phone that does not have Airwatch active is not permitted.

For additional information, please visit [http://go.uth.edu/airwatch](http://go.uth.edu/airwatch)

If you have any questions about computer specifications or requirements, please contact Patrick Finnerty at Gordon.Finnerty@uth.tmc.edu / 713-486-4183 or Richard “Hal” Halpin at Richard.Halpin@uth.tmc.edu / 713-486-4216.
ACCREDITATION

The programs offered by The University of Texas School of Dentistry at Houston are accredited by the Commission on Dental Accreditation of the American Dental Association.

The Commission on Dental Accreditation will review complaints that relate to program compliance with the accreditation standards. The commission is interested in the sustained quality and continued improvement of dental and dental-related education programs but does not intervene on behalf of individuals or act as a court of appeal for individuals in matters of admission, appointment, promotion or dismissal of faculty, staff or students.

A copy of the appropriate accreditation standards and/or the Commission’s policy and procedure for submission of complaints, may be obtained by contacting the Commission at 211 East Chicago Avenue, Chicago, IL 60611-2678, or by calling 1-800-8099, ext. 4653.

CHECK CASHING AND MAIL

Accommodations for cashing personal checks must be arranged through one of the local banks. Once you have established residence in Houston, personal mail should be sent to your home address since the Health Science Center cannot handle personal mail for students or employees. We would also recommend that students utilizing Financial Aid take advantage of the direct deposit option.

PARKING

Student contract parking is available. For more information, please visit https://www.uth.edu/parking/index.htm. You may also call 713-500-3405 or email parking@uth.tmc.edu.

STUDENT ORGANIZATIONS

There are several organizations that provide an opportunity for School of Dentistry students to become familiar with activities of professional societies. These include the Texas Dental Association, American Student Dental Association, Zeb Poindexter Chapter of the Student National Dental Association, Hispanic Student Dental Association, Asian American Student Dental Association, Christian Dental Fellowship, Muslim Health Professional Society, American Dental Education Association, Texas Association of Women Dentists, Student Research Group, Pediatric Education in the Dental Society (PEDS), Donald Butler Dental Society, AGD Student Chapter, and others.

All students regularly enrolled at the School of Dentistry are members of the Student Association, which coordinates a number of student-related activities. The Student Council serves as the governing body of the Student Association. Members of the Student Council are the elected officers from each class. Students may also participate in University of Texas Health Science Center student organizations such as the Student Intercouncil.
Fraternities represented at the School of Dentistry are Delta Sigma Delta, Alpha Omega and Psi Omega. You will be provided more information on Dental Fraternities during Orientation.

Mu Mu Chapter of Omicron Kappa Upsilon, the National Honor Dental Society, was established in 1940. This society provides recognition for those students who have been outstanding in their class during their four years of training at the School of Dentistry. Members of the graduating class who warrant such consideration, in the opinion of faculty members of OKU, are recommended to the Officers of Omicron Kappa Upsilon for membership in the honor society. The chapter annually recognizes the top ten percent of the first year class at the OKU Awards Convocation in the spring.

**ESSENTIAL SKILLS FOR DENTISTS AND DENTAL HYGIENISTS**

To be successful, dentists and dental hygienists must demonstrate cognitive skills in critical and logical/analytical thinking. Dentists and dental hygienists must possess and demonstrate psychomotor skills (fine motor dexterity and coordination) and observational skills (vision, hearing and tactile abilities) sufficient to master the clinical procedures essential in the treatment of dental disease.

All individuals who apply for admission to The University of Texas School of Dentistry at Houston, without exception, **must** be able to perform essential functions. Essential functions are the basic activities that a student must be able to perform to complete the curriculum. An applicant who cannot perform the following essential functions - either with or without reasonable accommodations - will not be considered for admission. If you feel you cannot fulfill any of these functions, you are to contact the Associate Dean for Student Affairs immediately.

**COMMUNICATION**

Students must be able to communicate effectively with patients and patient family members, peers, staff, faculty and other members of the health care team. Communication requires the ability to assess all information provided by the patient including non-verbal responses, within safety-related timeframes. Students must be able to communicate in oral and written format that is succinct, organized and complete. These communications will include assessments, prescriptions and dental record notes. Students must be able to demonstrate sensitivity to cultural, emotional and societal issues.

**SENSORY AND PSYCHOMOTOR SKILLS**

Students must be able to gather patient information needed for a diagnosis through adequate visual, tactile, smell, and auditory senses. Students must have sufficient physical abilities and stamina to provide dental care and respond to emergency situations. Students must have the manual dexterity to execute both gross and fine motor movements required to provide dental care for their patients.

**COGNITIVE ABILITIES**

Students must have the cognitive abilities to master the dental curriculum, including the basic, behavioral, and clinical sciences. Students must be able to measure, calculate, reason, analyze, synthesize, integrate and apply information. In addition, students must be able to comprehend three-dimensional relationships and to understand the spatial relationships required to provide dental care. Students must be able to demonstrate
critical thinking, problem solving, and decision-making skills required in the practice of dentistry.

**BEHAVIORAL AND SOCIAL ATTRIBUTES**

Students must be able to demonstrate professional behavior and function with integrity and responsibility while maintaining a high ethical standard. In addition, the students must be able to demonstrate the ability to be compassionate, emphatic and tolerant. Students must be able to interact in a collegial manner and demonstrate the ability to participate in teamwork. Students must possess the emotional health required to use their intellectual abilities fully, such as exercising good judgment, promptly completing all responsibilities attendant to the diagnosis and care of patients, and developing mature, sensitive, and effective relationships with patients. Students must be able to tolerate physically taxing workloads and to function effectively under stress. Students must be able to adapt to changing environments, respond appropriately to unpredictable circumstances, and to display flexibility.

**CHRONIC CONDITIONS**

Students must not possess any chronic or recurrent illnesses such as infectious, psychiatric or substance abuse problems that would interfere with quality patient care or safety and that are not compatible with dental practice or training.

**POLICIES AND RESPONSIBILITIES**

**PROFESSIONALISM**

Professionalism is defined as, “the conduct, aims, or qualities that characterize or mark a profession or a professional person.” While these characteristics may vary from profession to profession, the practice of dentistry requires professionalism that goes far beyond basic honesty and integrity. The faculty and administration are dedicated to the development of professionalism in all School of Dentistry students. One aim of the institution is to create a learning environment, which offers students the opportunity to develop standards of excellence, which will sustain them throughout their professional careers.

**EMAIL**

All School of Dentistry students are assigned a school email address. This is the university’s primary method of communicating important messages to you. You are responsible for checking your school email at least once a day.

**PERSONAL APPEARANCE**

**PERSONAL HYGIENE**

Students should follow good principles of personal hygiene on a daily basis. Men should be clean-shaven, or if wearing a beard or mustache, it should be a neat trim. Hands and fingernails should be clean, with fingernails trimmed to be no longer that the end of the finger.
ATTIRE

Students are expected to maintain a professional appearance. During operating hours, students are prohibited from wearing shorts. Men’s shirts must have sleeves and women are prohibited from wearing tank tops, halters, or shirts that bare the midriff. Baseball caps, jeans, and T-shirts are not considered appropriate attire in classes, preclinical laboratories, or clinics. Preferred attire for classes and clinics is surgical scrubs. Scrubs allow for a professional appearance, are relatively inexpensive, durable and comfortable. The vertically integrated intra-professional nature of our clinics does require differentiation between the various classes of dental and dental hygiene students, a scrub color variation allows for this distinction. To insure standardization of the colors, you will be expected to obtain your scrubs from the School of Dentistry Bookstore or a vendor selling the White Swan line. Your class will be asked to wear among the following colors: Navy, New Navy, Teal, Wine, Seaspray, Caribbean, Galaxy Blue, Ciel, Granite or Sand.

The color for your entering class of 2019 is Pewter (Grey). You may purchase the scrubs from the bookstore or the same brand for consistency of color. An email was sent in April to the entering class giving the approved color. Students who are not in compliance with these minimal dress requirements will not be allowed to remain in the building.

Office of Student Financial Services: [link](https://www.uth.edu/sfs/)

Student Service Fees: [link](https://www.uth.edu/registrar/current-students/registration/tuition--fee-schedule.htm)

Estimated Educational Expenses for the 2nd, 3rd, and 4th years may be found on the Financial Aid website: [link](https://www.uth.edu/sfs/financial-aid/attendance.htm)

Payment Methods: [link](https://www.uth.edu/student/bursar/student-resources/tuition-payments.htm)
FINANCIAL AID

The awarding of financial aid through The University of Texas Health Science Center at Houston is limited by the availability of funds. All awards are made on the basis of established financial need. Any funds awarded will be released on the first day of orientation. To continue receiving financial aid, a student must maintain satisfactory academic progress and submit the annual renewal application.

The Office of Student Financial Services strongly encourages all students to enroll in direct deposit to expedite the receipt of and access to funds.

For further information, or to obtain a loan application:

Office of Student Financial Services
https://www.uth.edu/sfs/
713-500-3860

STUDENT SERVICES FEE

The Student Services Fee (listed in the previous educational cost table) covers your enrollment in the student health service, recreation center membership, shuttle, UTHSC Student Inter-council, and student governance for the respective schools of the Health Science Center.

Included in Student Health Services is general outpatient medical services such as routine office visits, health assessment, routine immunizations, and care for needle stick related injuries. You will be required to pay charges incurred for other services such as laboratory tests, radiological services, pharmaceuticals, hospital and referred consultations, and expensive immunizations such as the Hepatitis B vaccine. Student Health Services is open from 8:30am-12pm and from 1pm-5pm Monday through Friday. Acute illness walk-ins can be seen from 9:00am-11:00am. The Student Health Service is located in The University of Texas Professional Building, 6410 Fannin, Suite 130. For further information or an appointment you may contact them at 713-500-5171 or visit their website at http://www.uthouston.edu/studenthealth/

Optional recreational student services fee coverage for family members is available as follows:
